DESCRIPTION

Add knobs to your grid with this add-on accessory for the HELLA UNTZtrument. This is a replacement piece of laser cut acrylic to use when building an [Adafruit HELLA UNTZtrument](#) It's perfect for adding a [rotary encoder](#) or any of our [panel mount potentiometers](#).

Swap this in during your build or upgrade your HELLA UNTZtrument after the fact. This piece can be used for the front only. Use the 'normal' UNTZtrument add-on for the two sides **This part only works with the front piece of the HELLA UNTZtrument and not the normal UNTZtrument!** [Click here if you're looking for the normal UNTZtrument add-on](#), also can be used for the sides of the HELLA!
