Wera VDE screwdrivers with multi-component Kraftform handle for fast and low-fatigue working: hard gripping zones for high working speeds whereas soft zones ensure high torque transfer. Individually tested in water bath at 10,000 volts for secure work at the permissible voltage of 1,000 volts. Reduced blade diameter so that even low-lying screws can be easily accessed. The hexagonal anti-roll feature prevents any bothersome rolling away at the workplace.
