

SEG Smooth End Grommet

Specifications

SEG

Material: Co-Polyester Blue

Operating temperature range:

Continuous, -25 to 120°C
Short term, -40 to 150 °C

One-piece slit grommet providing abrasion protection for cables passing through a hinged fitting junction where conduit is not required. The grommet sits tightly into the fitting junction to secure the cable.

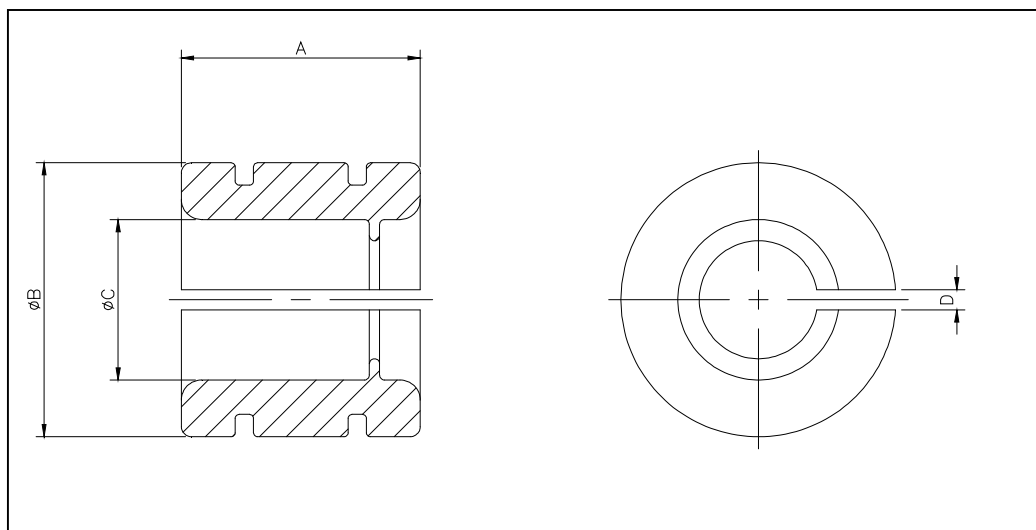

SEG/H

Material: TPV Black

Operating temperature range:

Continuous, -35 to 135°C
Short term, -45 to 175 °C
