

Product description	M5 Male panel mount connector, Contacts: 4, unshielded, THT, IP67
Area	series 707
Part no.	09 3111 81 04

Technical data

General features

Part no.	09 3111 81 04
Connector design	Male panel mount connector
Type standard	DIN EN 61076-2-105

Product description	M5 Male panel mount connector, Contacts: 4, unshielded, THT, IP67
Area	series 707
Part no.	09 3111 81 04

Version	Connector pin straight
Connector locking system	screw
Termination	THT
Degree of protection	IP67
Temperature range from/to	-25 °C / 80 °C
Mechanical operation	> 100 Mating cycles
Weight (g)	1.18
Customs tariff number	85369010
Country of Origin	DE

Electrical parameters

Rated voltage	60 V
Rated impulse voltage	800 V
Rated current	1.0 A
Insulation resistance	> 10 ⁸ Ω
Pollution degree	3
Overvoltage category	II
Insulating material group	I
EMC compliance	unshielded

Material

Contact body material	PA
Contact material	CuZn (brass)
Contact plating	Au (gold)
REACH SVHC	CAS 7439-92-1 (Lead)
SCIP number	831b6081-a573-43b4-986c-92440386a8f1

Classifications

eCl@ss 11.1	27-44-01-09
ETIM 9.0	EC003569

Product description	M5 Male panel mount connector, Contacts: 4, unshielded, THT, IP67
Area	series 707
Part no.	09 3111 81 04

Assembly instructions / Panel cut-out

Product description	M5 Male panel mount connector, Contacts: 4, unshielded, THT, IP67
Area	series 707
Part no.	09 3111 81 04

Security notices

The connector must not be plugged or unplugged under load. Non-observance and improper use can result in personal injury.

The connectors have been developed for applications in plant engineering, control and electrical equipment construction. The user is responsible for checking whether the connectors can also be used in other areas of application.

Connectors which are used in circuits with voltages dangerous to the touch may only be installed and used by, or under the supervision of, persons with electrical engineering training, taking into account the applicable regulations and standards.

The user must take suitable safety precautions to ensure that the connector cannot be accidentally disconnected.

Plug connectors with enclosure protection IP67 and IP68 are not suitable for use under water. When used outdoors, the plug connectors must be protected separately against corrosion. For further information on the IP protection classes, please refer to the "Technical Information" download centre.

The plug connector is not suitable for mains voltages Please observe the pollution degree and the overvoltage category. For further information, please refer to the download center "Technical Information".

To lock the cable connector with the device connector, the threaded ring is tightened "hand-tight" (approx. 50 cNm).
