SparkFun Tool Bag Kit Product Help and Resources

SKILLS NEEDED

Core Skill: DIY

Whether it's for assembling a kit, hacking an enclosure, or creating your own parts; the DIY skill is all about knowing how to use tools and the techniques associated with them.

Skill Level: Noob - Basic assembly is required. You may need to provide your own basic tools like a screwdriver, hammer or scissors. Power tools or custom parts are not required. Instructions will be included and easy to follow. Sewing may be required, but only with included patterns.

★★★★★ It's great ite

about 3 years ago by [Member #634327](#) verified purchaser

It's great item to have to move your equipment easily thank you so much.

Stay great

★★★★☆ Works well as an assortment bag for my job

about 2 years ago by [Member #655026](#) verified purchaser

Holds all my specific soldering and small SMT tools I need when I'm in the field. Great kit. Highly recommend.

★★★★☆ Good assortment of tools

about a year ago by [BerenV](#) verified purchaser

I was very impressed with the quality of the wire strippers, the flush cutters, the hobby knife, and the curved tweezers. The solder vacuum seems nice, but I haven't tried it yet. The screwdriver and pliers are very cheaply made, but they work. The straight cross-lock tweezers didn't close all the way, and don't have a super fine tip, but after some bending and filing they basically work. Kind of interesting mix of quality, but a good value.
