

# UW 16-POT - Panel feed-through terminal block

3073487

<https://www.phoenixcontact.com/us/products/3073487>

Please be informed that the data shown in this PDF document is generated from our online catalog. Please find the complete data in the user documentation. Our general terms of use for downloads are valid.

Panel feed-through terminal block, connection method: Screw connection with tension sleeve, Cable lug connection, number of positions: 1, load current: 76 A, cross section: 6 mm<sup>2</sup> - 25 mm<sup>2</sup>, connection direction of the conductor to plug-in direction: 0 °, width: 12.1 mm, color: gray

## Your advantages

- Well-known connection principle allows worldwide use
- Low temperature rise, thanks to maximum contact force
- Tool-free snap-in principle enables easy mounting on the device panel
- Automatic panel thickness compensation enables universal use
- Reliable seal even with low-viscosity molding compounds

## Commercial data

## Technical data

### Product properties

|                       |                                   |
|-----------------------|-----------------------------------|
| Product type          | Panel feed-through terminal block |
| Product family        | UW 16-POT                         |
| Number of positions   | 1                                 |
| Pitch                 | 12.1 mm                           |
| Number of connections | 2                                 |
| Number of rows        | 1                                 |
| Number of potentials  | 1                                 |

### Data management status

|                  |    |
|------------------|----|
| Article revision | 03 |
|------------------|----|

### Insulation characteristics

|                      |     |
|----------------------|-----|
| Overvoltage category | III |
| Degree of pollution  | 3   |

### Electrical properties

|                             |       |
|-----------------------------|-------|
| Nominal current $I_N$       | 76 A  |
| Nominal voltage $U_N$       | 500 V |
| Rated voltage (III/3)       | 500 V |
| Rated surge voltage (III/3) | 6 kV  |

### Connection data

#### Connection technology

|                       |                    |
|-----------------------|--------------------|
| Connector system      | UW 16 / PW 16      |
| Nominal cross section | 16 mm <sup>2</sup> |

#### Conductor connection exterior

|                                                                                           |                                            |
|-------------------------------------------------------------------------------------------|--------------------------------------------|
| Connection method                                                                         | Screw connection with tension sleeve       |
| Connection direction of the conductor to plug-in direction                                | 0 °                                        |
| Conductor cross section rigid                                                             | 6 mm <sup>2</sup> ... 25 mm <sup>2</sup>   |
| Conductor cross section flexible                                                          | 6 mm <sup>2</sup> ... 16 mm <sup>2</sup>   |
| Conductor cross section flexible, with ferrule without plastic sleeve                     | 6 mm <sup>2</sup> ... 16 mm <sup>2</sup>   |
| Conductor cross section, flexible, with ferrule, with plastic sleeve                      | 6 mm <sup>2</sup> ... 16 mm <sup>2</sup>   |
| 2 conductors with same cross section, solid                                               | 2.5 mm <sup>2</sup> ... 10 mm <sup>2</sup> |
| 2 conductors with same cross section, flexible                                            | 2.5 mm <sup>2</sup> ... 6 mm <sup>2</sup>  |
| 2 conductors with same cross section, flexible, with ferrule without plastic sleeve       | 4 mm <sup>2</sup> ... 6 mm <sup>2</sup>    |
| 2 conductors with the same cross section, flexible, with TWIN ferrule with plastic sleeve | 4 mm <sup>2</sup> ... 6 mm <sup>2</sup>    |
| Internal cylindrical gage                                                                 | B7                                         |
| Stripping length                                                                          | 16 mm                                      |

|                                                            |                      |
|------------------------------------------------------------|----------------------|
| Tightening torque                                          | 2 Nm ... 2.3 Nm      |
| Conductor connection interior                              |                      |
| Connection method                                          | Cable lug connection |
| Connection direction of the conductor to plug-in direction | 0 °                  |

## Material specifications

### Material data - contact

|                         |                                                                                  |
|-------------------------|----------------------------------------------------------------------------------|
| Note                    | WEEE/RoHS-compliant, free of whiskers according to IEC 60068-2-82/JEDEC JESD 201 |
| Contact material        | Cu alloy                                                                         |
| Surface characteristics | tin-plated                                                                       |

### Material data - housing

|                                                                   |             |
|-------------------------------------------------------------------|-------------|
| Color (Housing)                                                   | gray (7042) |
| Insulating material                                               | PA          |
| Insulating material group                                         | I           |
| CTI according to IEC 60112                                        | 600         |
| Flammability rating according to UL 94                            | V0          |
| Glow wire flammability index GWFI according to EN 60695-2-12      | 850         |
| Glow wire ignition temperature GWIT according to EN 60695-2-13    | 775         |
| Temperature for the ball pressure test according to EN 60695-10-2 | 125 °C      |

## Notes

### Safety note

|             |                                                                                                                                                                                                                                                              |
|-------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Safety note | <ul style="list-style-type: none"><li>Only electrically qualified personnel may install and operate the product.<br/>To recognize and prevent danger, the qualified personnel must be familiar with the basics of electrical engineering.</li></ul>          |
|             | <ul style="list-style-type: none"><li>Observe the technical data provided here and refer to the documents listed under "Downloads". The download area contains important information, such as installation notes, technical drawings, and 3D data.</li></ul> |

## Mechanical tests

### Test for conductor damage and slackening

|               |                       |
|---------------|-----------------------|
| Specification | IEC 60947-7-1:2009-04 |
| Result        | Test passed           |

### Pull-out test

|                                                                             |                                         |
|-----------------------------------------------------------------------------|-----------------------------------------|
| Specification                                                               | IEC 60947-7-1:2009-04                   |
| Conductor cross section/conductor type/tractive force setpoint/actual value | 6 mm <sup>2</sup> / solid / > 80 N      |
|                                                                             | 6 mm <sup>2</sup> / flexible / > 80 N   |
|                                                                             | 25 mm <sup>2</sup> / stranded / > 135 N |
|                                                                             | 16 mm <sup>2</sup> / flexible / > 100 N |

## Electrical tests

### Temperature-rise test

|                                   |                                |
|-----------------------------------|--------------------------------|
| Specification                     | IEC 60947-7-1:2009-04          |
| Requirement temperature-rise test | Increase in temperature ≤ 45 K |

### Short-time withstand current

|               |                       |
|---------------|-----------------------|
| Specification | IEC 60947-7-1:2009-04 |
|---------------|-----------------------|

### Air clearances and creepage distances | 1. Insulation coordination

|                                                        |                       |
|--------------------------------------------------------|-----------------------|
| Application                                            | without spacer plate  |
| Specification                                          | IEC 60947-7-1:2009-04 |
| Insulating material group                              | I                     |
| Comparative tracking index (IEC 60112)                 | CTI 600               |
| Rated insulation voltage (III/3)                       | 500 V                 |
| Rated surge voltage (III/3)                            | 6 kV                  |
| minimum clearance value - non-homogenous field (III/3) | 5.5 mm                |
| minimum creepage distance (III/3)                      | 6.3 mm                |

### Air clearances and creepage distances | 2. Insulation coordination

|               |                       |
|---------------|-----------------------|
| Application   | with spacer plate     |
| Specification | IEC 60947-7-1:2009-04 |

# UW 16-POT - Panel feed-through terminal block

3073487

<https://www.phoenixcontact.com/us/products/3073487>

|--------------------------------------------------------|---------|
| Insulating material group                              | I       |
| Comparative tracking index (IEC 60112)                 | CTI 600 |
| Rated insulation voltage (III/3)                       | 800 V   |
| Rated surge voltage (III/3)                            | 8 kV    |
| minimum clearance value - non-homogenous field (III/3) | 8 mm    |
| minimum creepage distance (III/3)                      | 10 mm   |

## Environmental and real-life conditions

### Glow-wire test

|                  |                        |
|------------------|------------------------|
| Specification    | IEC 60695-2-11:2000-10 |
| Temperature      | 960 °C                 |
| Time of exposure | 30 s                   |

### Ambient conditions

|                                         |                                                                               |
|-----------------------------------------|-------------------------------------------------------------------------------|
| Ambient temperature (operation)         | -40 °C ... 100 °C (Depending on the current carrying capacity/derating curve) |
| Ambient temperature (storage/transport) | -40 °C ... 70 °C                                                              |
| Relative humidity (storage/transport)   | 30 % ... 70 %                                                                 |
| Ambient temperature (assembly)          | -5 °C ... 100 °C                                                              |

## Packaging specifications

|                   |                     |
|-------------------|---------------------|
| Type of packaging | packed in cardboard |
