

Corcom H Series 20A Power Line Filters

The H Series filters are suitable for use in medical equipment and feature a 2 element circuit that provides general purpose performance above 1MHz with minimal leakage current. The new 20A versions are for chassis mount installations and offer either spade or threaded bolt terminations.

KEY FEATURES

- Minimal leakage current suitable for medical equipment
- Two element circuit provides basic EMI attenuation above 1MHz
- Low profile design allows for a space-saving design solution
- Compliant with internal spacing requirements for UL60601-1, 3rd edition for medical applications
- Capacitive input
- Designed for easy connection and installation

APPLICATIONS

- Dialysis machines
- Diagnostic equipment
- Medical laser
- CAT scanners
- MRT scanners
- Dentist equipment
- Operating room equipment
- Physical therapy equipment
