Product Description	Magnetic cable tie mounts route bundles by securing to steel surfaces without the need for a mounting hole. Simply attach the wire bundle to the mount with a cable tie and position it onto the beam, metal joist, ceiling channel, conveyor frame, or other steel surface. The pipe mount has a unique shape to adhere perfectly to steel pipes. The mounts are simple to secure and can attach to surfaces contaminated with oil or debris. Ultra-strong neodymium magnets are ideal as a permanent mount or for temporary applications. Reuse and reposition them for ultimate flexibility without needing to replace or repurchase parts. Magnetic cable tie mounts can be paired with standard T18-T50 cable ties.
