FMHT10358-0

- Recessed blade helps reduce risk of injury
- Replaceable blade head
- Hook piercer pierces and cuts through single and double wall corrugate cardboard
- Slip-resistant bi-material grip for comfort and control
- Integrated metal tape splitter pierces and cuts through thick layered tape in one motion
- Lightweight construction helps reduce user fatigue
- Lanyard tether for easy transportation, security or storage

Description:

The STANLEY FATMAX Replaceable Head Single Pull Cutter has a recessed blade, integrated metal tape splitter, slip-resistant bi-material grip, and hook piercer that pierces and cuts through single/double wall corrugate. The pull cutter uses a replaceable blade head, allowing the tool to be reused for a longer life. The lightweight design helps reduce user fatigue when working continuously with cutting tools in a fast-paced environment. The safety cutter reduces the risk of cuts, lacerations, and punctures on the job.
