

F

CALUS

Technical drawing of a mechanical part. The drawing shows a cross-section of a component with a central vertical slot. The top width is dimensioned as 6.3 ± 0.3 . The bottom width is dimensioned as 7.35 ± 0.5 . A circular callout labeled '1' points to the upper part of the component. A circular callout labeled '2' points to the central vertical slot.

The drawing shows a cross-section of a mechanical assembly. At the top, there is a horizontal line representing a surface. Below this, a central rectangular block is shown. Four vertical pins or rods are positioned below the block, each with a conical tip. The pins are arranged symmetrically around a central vertical dashed line. The base of the assembly is represented by a horizontal line at the bottom. The drawing is a technical sketch, likely for a patent application, showing the internal structure and components of the device.
