# DF57 Series Mating / Unmating Operation Instruction

## Mating

①By positioning the convexity of the socket sides to the header concavity, align the centers of the socket and the header in pitch direction.

②Slightly press the socket down at cable side to tilted angle.

③Press down at the lever side with stabilizing the cable side to insert. Mating completes.

## Unmating

①Hook the lever with finger nail.

②Lift up to the upper direction and friction lock is released.

③Lift up to the upper direction and positive lock is released. Removal completes.
