## Product introduction

Square illuminated pushbutton switch (UB series) / Solder terminal type (gold plated contact): Single pole double throw / Functional operation: Momentary / Switch shape: Flanged / No barrier (Snap-in) / Ultra-high brightness (Level 1) LED Color: Red · Continuous mounting possible · Shut out of flux intrusion · Long stroke Light operation feeling · Operation part sold separately · Operating temperature range: -25 ~ 50 °C · Application: Communication equipment, wireless application equipment, electronic measuring instrument , Office equipment automation equipment, consumer electronic equipment, etc. · EU-RoHS compliant  
Model name: UB-15H1KKG4R

## Product Summary

Model name	UB-15H1KKG4R
category	Illuminated push button
series	UB
Subcategory	Illuminated switch
Contact specifications	Gold plate
Current capacity for detailed display 1	0.4VA MAX. 28V MAX.
Operating temperature range (°C)	-25 / + 50
Number of poles	Single pole
Function 1	ON- (ON)
Function 2	Momentary
Operation section shape	Sold separately: Corner 12
Terminal shape	Solder terminals
Panel mounting method	Snap-in type
Estimated panel mounting hole dimensions (unit: mm)	16.2 × 16.2
Estimated panel thickness (unit: mm)	3.2Max.
Light emitting	High brightness LED

element	
Emission color	Red
Environmental performance	RoHS

Specification change

No.	category	Overview	date of issue	PDF
352	Specification change	Compliant with the banned substance standards of 10 substances regulated by EU-RoHS Directive Compliant by July 22, 2019	April 26, 2019	
272	Specification change	Transfer of production from Chinese factory to Philippine factory	March 31, 2016	

Function UP accessories

- ▶ Dustproof cover AT-4001 (dustproof cover, frame color: black)
- ▶ Safety guard barrier AT-4171
