

HEZ breakaway and non-breakaway in-line rejection fuse holders for UL Class CC fuses

Catalog Symbol: HEZ

Description:

Bussmann® series HEZ submersible, single-pole in-line rejection fuse holders are for UL Class CC fuses. They are available in non-breakaway and breakaway versions with an array of terminal options to meet application needs. Breakaway versions come with insulating boots to provide submersibility per UL IP67. Non-breakaway versions require ordering optional insulating boots for submersibility.

Recommended fuses:

Catalog symbol	Operation	Data sheet No.
LP-CC	Time-delay	1023
FNQ-R		1014
KTk-R	Fast-acting	1015

Ratings:

Volts: 600V

Amps: up to 30A limited by conductor size

Withstand: 200kA RMS Sym.

Agency information:

UL® Listed, Guide IZLT, File E14853

CSA® Certified, Class 6225-01, File 47235

CE, RoHS compliant

Coupling nut torque:

10-20 Lb-In (1.1-2.2 N•m)

Operating and storage temperature:

-40°F (-40°C) to 221°F (105°C)

Insulating boots:

Two insulating boots come standard with the breakaway holder configurations. Insulating boots are not included as standard with non-breakaway holders. Two insulating boots must be ordered separately, if required, for each non-breakaway holder ordered. When insulating boots are utilized, extra heat retention requires that fuses are sized at a minimum of 200% of the RMS load current.

Use these part numbers to order insulating boots for a non-breakaway HEZ holder:

Description	Part no.
Single conductor	2A0660
Dual conductor	2A0661

Boot reference:

Installation instructions:

Strip wire insulation equal to the depth of the crimp or screw terminal. Torque screw terminal to 35 Lb-In (3.9 N•m) or crimp terminal twice, spacing crimps a distance of one-third from each end (as shown below) using an appropriate crimp tool and die. See page 3 for recommended crimping tools.

Non-breakaway catalog number system

To order:

Specify catalog symbol HEZ and the loadside terminal code. Then select a lineside terminal code that is available with the loadside terminal. Example: HEZ-AA defines a non-breakaway holder with both loadside and lineside copper crimp terminals for a single 8-16 AWG or two 12-16 AWG wires.

Catalog symbol	Loadside terminal	Lineside terminal	Agency Information		Loadside terminal			Lineside terminal			Reference length A	Breakaway equivalent		
			UL	CSA	Terminal type		Wire range*	Terminal type		Wire range*				
HEZ	A	A	X	X	Cu crimp			#8-16; (2) #12-16	Cu crimp			#8-16; (2) #12-16	4.4 (112)	HEZ-AW-RLC-A

* Solid/stranded conductors unless otherwise noted.
