TECHNICAL DETAILS

DESCRIPTION

We are very excited to have one of the first (and we think the best) Enclosure for Arduino & project box! Here are all the details:

- Dimensions: 3.6" x 5" x 1.35"
- Injection molded ABS plastic
- Enclosure is easy to machine, drill, cut and shape to what you need
- Brass screw inserts (can be used and reused many times, very durable!)
- Fits standard [Arduinos](#) and [16 x 2 LCDs](#)
- Fits Arduino with [Adafruit Protoshield](#) on top with .45" clearance
- Pop out plates for GPS, buttons, sensors, switches, knobs, etc!
- Holds up to 4 AAA batteries internally using [2xAAA holders](#). AA's can squeeze in but the case wont close nicely so we suggest AAA's
- Comes with screws for the LCD, Arduino and case
- Made in Canada!

Comes with all parts shown.

Want some ideas of how to use it? [We have a tutorial showing how we made a portable data-](#)

Downloaded from [Arrow.com](#). [Click here to learn how to drill and add mechanical connections, etc.](#)
