

HT-CT

TE Internal #: ES1485-000

Continuous, High Temperature, 3:1 Shrink Ratio, Blue, 2.4mm [.94in] Expanded Inside Diameter, HT-CT, Printable Tubing

[View on TE.com >](#)

Identification & Labeling > Printable Tubing > Continuous Tube High Temperature HT-CT

Printable Tubing Type: **Continuous**

Printable Tubing Grade: **High Temperature**

Shrink Ratio: **3:1**

Primary Product Color: **Blue**

Expanded Inside Diameter (Min): **2.4 mm [ .94 in ]**

[All Continuous Tube High Temperature HT-CT \(44\)](#)

Features

Product Type Features

|                        |                  |
|------------------------|------------------|
| Printable Tubing Type  | Continuous       |
| Printable Tubing Grade | High Temperature |

Body Features

|                       |      |
|-----------------------|------|
| Shrink Ratio          | 3:1  |
| Primary Product Color | Blue |

Dimensions

|                                 |                              |
|---------------------------------|------------------------------|
| Expanded Inside Diameter (Min)  | 2.4 mm[.94 in]               |
| Recovered Inside Diameter (Max) | .8 mm[.031 in]               |
| Compatible Cable Diameter Range | .81 – 1.9 mm[.032 – .076 in] |

Usage Conditions

|                             |                            |
|-----------------------------|----------------------------|
| Operating Temperature Range | -55 – 225 °C[-67 – 437 °F] |
|-----------------------------|----------------------------|

Packaging Features

|                    |    |

|                                               |                                                                                                                                |
|-----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------|
| EU RoHS Directive 2011/65/EU                  | Compliant                                                                                                                      |
| EU ELV Directive 2000/53/EC                   | Compliant                                                                                                                      |
| China RoHS 2 Directive MIIT Order No 32, 2016 | No Restricted Materials Above Threshold                                                                                        |
| EU REACH Regulation (EC) No. 1907/2006        | Current ECHA Candidate List: JUNE 2024 (241)<br>Candidate List Declared Against: JAN 2024 (240)<br>Does not contain REACH SVHC |
| Halogen Content                               | Low Bromine/Chlorine - Br and Cl < 900 ppm per homogenous material. Also BFR /CFR/PVC Free                                     |
| Solder Process Capability                     | Not applicable for solder process capability                                                                                   |

Product Compliance Disclaimer

This information is provided based on reasonable inquiry of our suppliers and represents our current actual knowledge based on the information they provided. This information is subject to change. The part numbers that TE has identified as EU RoHS compliant have a maximum concentration of 0.1% by weight in homogenous materials for lead, hexavalent chromium, mercury, PBB, PBDE, DBP, BBP, DEHP, DIBP, and 0.01% for cadmium, or qualify for an exemption to these limits as defined in the Annexes of Directive 2011/65/EU (RoHS2). Finished electrical and electronic equipment products will be CE marked as required by Directive 2011/65/EU. Components may not be CE marked. Additionally, the part numbers that TE has identified as EU ELV compliant have a maximum concentration of 0.1% by weight in homogenous materials for lead, hexavalent chromium, and mercury, and 0.01% for cadmium, or qualify for an exemption to these limits as defined in the Annexes of Directive 2000/53/EC (ELV). Regarding the REACH Regulations, TE’s information on SVHC in articles for this part number is still based on the European Chemical Agency (ECHA) ‘Guidance on requirements for substances in articles’(Version: 2, April 2011), applying the 0.1% weight on weight concentration threshold at the finished product level. TE is aware of the European Court of Justice ruling of September 10th, 2015 also known as O5A (Once An Article Always An Article) stating that, in case of ‘complex object’, the threshold for a SVHC must be applied to both the product as a whole and simultaneously to each of the articles forming part of its composition. TE has evaluated this ruling based on the new ECHA “Guidance on requirements for substances in articles” (June 2017, version 4.0) and will be updating its statements accordingly.
