| Corrosion resistance class (CRC)                   | 4 - Particularly high corrosion stress                                                                                                                                                                                            |
| LABS (PWIS) conformity                             | VDMA24364-B1/B2-L                                                                                                                                                                                                                 |
| Suitability for the production of Li-ion batteries | Metals with more than 1% by mass of copper, zinc or nickel by mass are excluded from use. Exceptions are nickel in steel, chemically nickel-plated surfaces, printed circuit boards, cables, electrical plug connectors and coils |
| Product weight                                     | 353 g                                                                                                                                                                                                                             |
| Note on materials                                  | RoHS-compliant                                                                                                                                                                                                                    |
| Mounting material                                  | High-alloy stainless steel                                                                                                                                                                                                        |
| Nut material                                       | High-alloy steel                                                                                                                                                                                                                  |
