SAMZO		REAC/ROHS												REV		ECN NO		DESRIPTION		DESIGN		APPROVAL		DATE																																																																																																																																													
														A1		NEW		Replace frame						2019.06.12																																																																																																																																													
										Technical Requirements: 1.Frequency: 0~300GHz 2.Impedance: 50 Ω 3.Voltage Standing Wave Ratio (VSWR): ≤ 1.35 4.Rated Voltage: 750V 5.Withstand Voltage: 2000V 6.Insulation Resistance: ≥ 5000M Ω 7.Contact Resistance: Inner conductor ≤ 5 mΩ; Outer conductor ≤ 5 mΩ																																																																																																																																																											
																																																																																																																																																																					
																																																																																																																																																																					
UHF-KJ-290-L0-M-S										operation mode操作方式:转SMA Surface treatment镀层:亮镍. 金 operation direction方向:180°垂直 Length体长:29mm Product number编号:U-S.KJ Product series系列:UHF同轴射频连接器
