#### Mounting instructions/Description

Distance W 3 x Sn  Distance S 1.5 x B  Distance G 6 x Sn  Distance N 2 x Sn  Diameter active Ø 12 mm area B  All non-flush mountable uprox®+ threaded barrel sensors can be screwed to the upper edge of the barrel. In this mounting position, the sensor operates safely with a 20 % reduced switching distance.  When installed in an aperture plate a distance of X = 50 mm must be observed.
